# HOW do you PROTECT your SOCIAL MEDIA ACCOUNTS?

**2** CONFIGURE passwords, authentication and who has access to your profile in the privacy options

**3** CREATE STRONG PASSWORDS that are hard to guess

Don't repeat them. Two-factor AUTHENTICATION gives you the most security

Facebook and Twitter: account settings/ security/privacy

Instagram: Options/privacy

**7** BE CAREFUL when ACTIVATING your LOCATION in apps. It's wise not to give clues as to whether you're near or far from home

**6** ALWAYS Log out completely when you're finished.

**5** USE PRIVATE BROWSING (Especially if you're not using your computer)

So that your passwords, accounts or history won't be SAVED.

**8** REVIEW the TERMS and CONDITIONS of use of DIFFERENT PLATFORMS

they contain important information about how your personal data is processed

**9** TAKE CARE when sharing information

once it's out there, it's out there forever!

**10** Almost half the people in the world are on Social Media

REDUCE the VISIBILITY of your DATA and strengthen your SECURITY!

Accept friend requests from PEOPLE you KNOW. (If you don't know them, check out their profile first). That way you'll avoid bots, scammers or people who have gotten confused
